Pata de Perro [Git Repo https://github.com/adina-hc/pata-de-perro](https://github.com/adina-hc/pata-de-perro) | [Deployed https://shrouded-bayou-22662.herokuapp.com/](https://shrouded-bayou-22662.herokuapp.com/)

- Vacation activities app featuring navigator with login/signup, logout, vacation activities, cart, user profile updates, history of purchases.
- Technologies: MERN, GraphQL, JWT, Stripe, CSS, Styled-components, Font awesome.

Key Contributions:

- Contributed with the creation of models and components, documented the project with the use of GitHub task management tools, applied Scrum Agile software development techniques: issue structure, assignment, development, testing and deployment. Held daily team interactions.

Experience

GENPACT (Enterprise Risk Consulting)

Cincinnati, OH

2013-2020

Manager Operations

Role: Consulting, Risk & Compliance, Quality Assurance, Solution Identification & Process reengineering and improvement

Key Contributions:

- Identified and documented improvements and automation opportunities in end-to-end lending processes with the creation of 'as-is' and 'to-be' process maps for later offshoring of activities
- Consolidated risks in Risk and Control Matrix for the 'as-is' and future process stages, prior to offshoring
- Optimized Reporting with two MS Access Database tools: Suspicious Activity Reporting tracking by creating an Access database to consolidate SAR data, capturing metrics through dashboards and reports. Simplified, organized and optimized reporting of Progress in AML case results by Creating a MS Access tracking tool in an AML projects

Role: Regional Project Manager for Delegation Of Authority Transformation Project / Global Financial Services (GFS) Systems Compliance Lead for the Americas Region (Software Implementation)

Key Contributions:

- Spearheaded training and deployment of both projects in eight LatAm markets, simplifying and optimizing the financial approval flow with the Delegation of Authority application, and enhancing access privileges, monitoring & control, reducing conflicting activities and risk levels considerably with the Segregation of Duties tool.
- Praised by client for process simplification with DoA implementation, and received Finance winner award from the client

Role: GFS Compliance Lead - Americas Region

Key Contributions:

- Implemented enhanced FCF resulting in overall improvement of effectiveness in the execution of controls by 90% as consultant in Internal Auditing and Compliance
- Contributed to timely reporting of results, mitigation strategies to Management and key stakeholders
- Accomplishments in this role led to a permanent position in this company and further engagements with the Pharma client
